

SHERIDAN'S FUNERAL  
TO BE HELD TO-MORROW.

The funeral of Detective Martin J. Sheridan of the First Branch Bureau and famous as an athlete, who died on Wednesday night at St. Vincent's Hospital of pneumonia, will be held tomorrow afternoon at 2 o'clock.

The body will be escorted by a detail of police from his late residence, at No. 222 Lexington Avenue, to St. Vincent Ferrer's Church, 66th Street and Lexington Avenue.

Interment will be at Calvary Cemetery. Andrew J. Sheridan, a brother, made the announcement of the funeral plans. Announcement of the pallbearers will be made later.

SAGE AND SULPHUR  
DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost any one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## A SINGLE BAG OF SAND HIS FIELD FORT

AN AMERICAN INSTRUCTED BY A FRENCHMAN IN USING A SINGLE BAG OF SAND FOR PROTECTION

LONDON ANXIOUS,  
ASKS WHEN U. S.  
TROOPS WILL ACT

Some Discussion Also About Placing Gen. Robertson at the Helm.

LONDON, March 29.—An unknown factor in the battle toward which the English people are eagerly looking is the American army in France. "Where are the Americans? When are they coming?" are questions being asked everywhere. All the Americans in London are being asked by their English friends for answers to these queries.

America has been depended upon to fill the gap left by Russia. The popular belief regarding the number of American troops in France probably is greatly exaggerated. Many believe there are a million, or even two million, Americans already on the European side of the ocean, and the actual weight of American support is likely to prove a sharp disappointment.

There are opinions in some quarters that Gen. Sir William Robertson, Chief of the Eastern Command, whom many believe is the country's ablest organizing General, ought rather to be at the helm. There are reminders also that Redmond and Dillon might have brought all the manhood of Ireland into the fighting ranks had they been listened to. But the general feeling is that the errors of the past should be forgotten and that the shoulders of all should be put to this day's work in so far as it can be done.

The Daily News, considering the situation serious, calls for Entente counter-thrusts, saying: "In the future the only thing which could conceivably give ground for serious disquietude to the friends of the Allies would be prolonged absence of any sign of reaction on the part of the French and British armies."

U. S. RED CROSS AIDS  
REFUGEES FROM WAR ZONE

Old Women and Children Flee Into Paris as Germans Advance in Picardy Drive.

PARIS, March 29.—The women drivers of the American Fund for French Wounded, true to their traditions, have put their cars at the disposal of the numerous refugees arriving in Paris and are transporting them from station to station or to their friends in the city.

At the Northern Railway station to-day, the American Red Cross found itself able to give thousands of refugees the care and comfort they needed after many hours' travel. Every so often a train would bring in 300 of these unfortunates, most of them little children, old women and old men. They had been nearly three years in German hands until relieved last Spring and now have been forced to flee from the homes to which they had returned.

MUNITION DEPOT BLOW-UP  
IN FRANCE INJURES MANY

Explosion at Laxouneuve Heard 40 Miles Away—American Y. M. C. A. Workers Help Wounded.

PARIS, March 29.—Many persons were wounded in the explosion of a munition depot at Laxouneuve, near St. Denis to-day. The damage was extensive. The explosion was heard for forty miles and the concussion shattered windows in the centre of Paris.

An American Y. M. C. A. ambulance corps was the first to arrive at the scene of the explosion.

Deputy Provost Marshal General Johnson Transferred.

WASHINGTON, March 29.—Col. Hugh B. Johnson, Deputy Provost Marshal General, has been transferred from that duty to the office of Brigadier General Palmer E. Pierce, director of supplies, and will be a member of the War Department's supply organization.

QUICK DISCIPLINE  
OF N. Y. A. C. MEMBERS  
FOR GERMAN "DRIVE"

(Continued from First Page.)

An Evening World reporter that the disturbance had taken place and that as a result the organization will be gone over with care for anybody or anything that smacks of the enemy. The member who was expelled was found to be a German reservist, he said, and it is alleged that at the time of the sinking of the Lusitania he stated that he was pleased with that act of frightfulness.

"It is a fact that as a result of pro-German acts one of the members of the New York Athletic Club has been expelled and three suspended," said Mr. Mahoney. "The unpatriotic act occurred last Saturday night in the cafe. These men were gathered around a table, and from evidence which caused the expulsion of the one member were celebrating the German drive."

"I did not hear of the matter until Wednesday and I immediately called a meeting for that evening. It did not take long to establish the guilt of the one man who proved to be a German reservist. The other cases will be brought before the Board of Governors the second Tuesday in April. Also, I might add, the club will be carefully investigated for others of the same ilk. There is not a more patriotic organization in the United States than the New York Athletic Club and we will not stand for anything of this sort."

The N. Y. Athletic Club is one of the biggest clubs in the world and has a membership of more than 6,500, among which are some of New York's greatest financiers, professional men and others in various walks of life. Its members have brought laurels to it from home and abroad in every field of athletic endeavor and the club's proudest tradition is its pure Americanism.

## CHILDREN NEED FOOD—NOT ALCOHOL

How careless it is to accept alcoholic medicine for children when everybody knows that their whole health and growth depends upon correct nourishment. If your children are pale, listless, underweight or puny, they absolutely need the special, concentrated food that only

## SCOTT'S EMULSION

gives, to improve their nutrition and repair waste caused by youthful activity. During school term all children should be given Scott's Emulsion because it benefits their blood, sharpens their appetite and rebuilds their strength by sheer force of its great nourishing power.
